Volume 71

March 2023

Regal Eagle Making  
the Grade Drawing

Remember to bring  
in your latest  
report card for  
entries into the  
drawing. Each "A"  
gets 2 entries and  
each "B" gets 1  
entry. The winning  
ticket will receive a  
\$25 deposit to their  
savings. Our next  
drawing will be  
May 19, 2023.

**BRIGHT DAYS**

congrats

to our latest  
winner:  
*Laila  
Prejean*

## HERE ARE SOME SMART TIPS TO START GROWING YOUR SAVINGS:

1. Make a little plan for how much you want to save, write it down, and keep your goals in a safe place.
2. Record how much money you spend each week, what you spent it on, and how much you saved.
3. Wish list! Create a list where you write down the things you really want to save for and how much they cost.
4. Now and later. Each week split up any money your earned from allowances or gifts into 2 groups-some to use now & some for later.
5. Give yourself a reward each month for being a good saver! Make it something special like your favorite dessert!

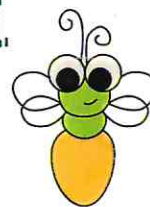

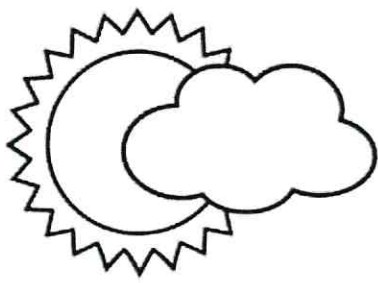

## Magical Firefly Fun Facts

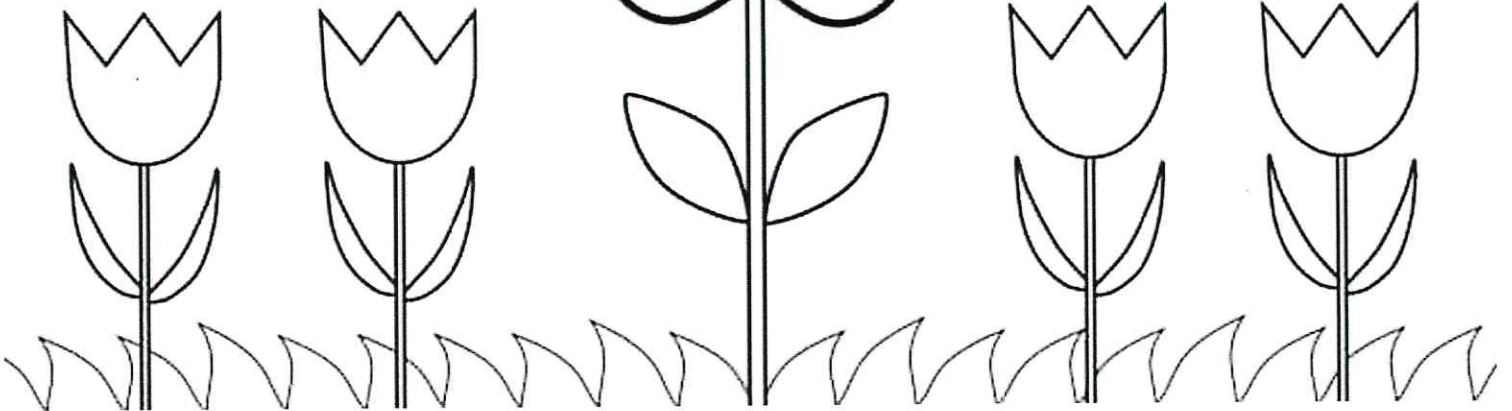

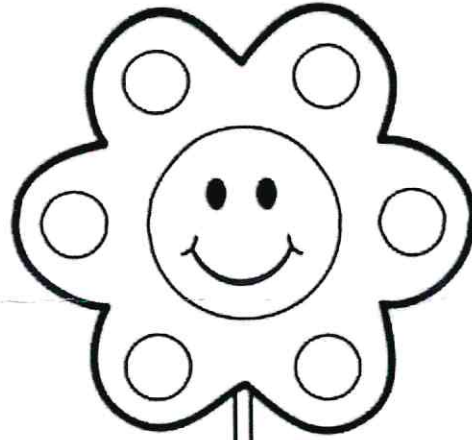

In the summer, many backyards are aglow with magical fireflies (lightning bugs). Here are some fascinating facts about them that you may not know:

1. Fireflies are not flies at all- they are actually beetles. They are nocturnal members of the Lampyridae family.
2. They are among the many species that are bio-luminescent- meaning they can produce their own light. A chemical reaction within the firefly's light organ produces the light.
3. The firefly's light is the most efficient light in the world. Nearly 100 percent of the chemical reaction's energy becomes light.
4. Fireflies flash in patterns that are unique to each species. Each blinking pattern is used to help them find potential mates.

# SPRING

## Springtime funnies!

What flowers grow on faces?

Tulips  
(Two lips)

Why are frogs so happy?

They eat whatever bugs them

Why is the letter "a" like a flower?

A bee comes after it!

Does February like March?

No, but April May

What goes up when the rain comes down?

An umbrella
